OPEN THE PARK.

A handful of residents around Stuyvesan Park protest against the opening of the pleasure-ground to the public after sundown. The memorialists are mainly people of wealth who do not use the Park, but who want it kept quiet and "select" by being closed a the hour laboring people leave off work. It is entirely proper that the Park Commis

sioners should give these exclusives a hearing. It is true they covetously desire to shut out their less favored neighbors from health and recreation by locks and bolts, just to gratify their own cranky notions. But they are entitled to state their case, nevertheless. We have full confidence that their selfish and narrow-minded policy will not find favor with the Park Commissioners, and that is entisfactory.

#But there should be no 'delay in granting this reasonable boon to the people. The gates the park should be kept open until 10 in the evening, and the order should be made while the hot weather is upon us. There are too few breathing places downtown to permit of any of them being closed to gratify the whims of a few exclusives.

THE BLAINE-HARRISON CAMPAIGN.

The BLAINE-HABBISON campaign will begin in sernest next week, when Gen. HARRISON's weak and washy speeches will be superseded by BLAINE's vigorous oratory.

But will the tramping and the shouting that will follow BLAINE's return leave Mr. LEVI P. MORTON wholly out of sight in the electionof the Premiership entirely overshadow the respectable insignificance of the Vice-Presidency?

Not quite. Occasionally during the cam paign, doubtless, Banker Morron will be drawn into the canvass-if only for a little

THIS WILL NOT DO.

There is a suspicion that ex-Mayor Grace is endeavoring to thrust a thumb and finger into the new Aqueduct pie. Assistant Corporation Counsel Scorr, one of the new Commissioners, is supposed to represent Mr. Grace and to owe his selection to that shrewd politician's influence. Mr. McCul-LOB, the original Secretary of the first Commission, is said to be making an effort to obtain restoration to his old position.

It is probable that a new deal may b advisable all through the Aqueduct machinery. But it certainly would not be desirable to go back to the old condition of affairs under the original Board. To the first Commission the people owe the O'Brrey and CLARK contracts and the division of all the work between two favored political combinations. The political assessments of 1885 were made under the first Board's management, and Mr. McCullon, under examination by he FASSETT Committee, made the very singular admission that when he left the Secretaryship he destroyed papers belonging to the Commission and relating to the questionable Aqueduct contracts.

Oh, no! The people want no return to the men or the methods of the old Aqueduct

The temporary delay on the Brooklyn Bridge railroad last evening only served to show the efficiency of the present management. It might be supposed that the breaking of the cable machinery on such a road would be a very serious matter. Yet the accident was speedily remedied and the crowd began again to move without any further mishap.

It will not do for Postmaster Pranson to ignore the Eight-Hour law on the pretense that he is resolved that the public shall be fully accommodated in the matter of postal delivery. It is his duty to call for more men if his force is insufficient, and not to compel letter-carriers to work twelve and fourteen hours a day when the law says he shall require of them only eight hours' work.

351 St. Mark's place, Brooklyn, July 31.

Conditions of the Contest. Following are the conditions of THE EVEN-ING WORLD's joke contest: It is open to everybody-men, women and children. Any person can submit one or as many jokes as desired. The decision however, will be made on the merits of the best joke in the

ollection.
The okes must be original, that is to say, they shall not have previously appeared in print to the knowledge of the competitor. Each joke must be written on one side of a sheet of paper, or it two or more sheets are required, they must be neatly secured to-gether. Each joke must bear the name of the competitor and the date on which it was

the compatitor and the date on which it was sent.

The jokes may consist of from one word to 200. The latter limit must not be exceeded and competitors should bear in mind that brevity is often "the soul of wit." A joke of a few lines, if first class, will stand as good a chance of winning the prize as one of twenty lines.

The prize will be \$25 for the best joke submitted. Bill Nye will read all jokes sent in, and will in his ripe judgment determine the winner. Some of the jokes will be published from time to time, but the publication or non-publication of a joke will have no bearing upon the final decision. A joke may be published and yet finally ruled out because it may be a "chestnut."

The Everning World cannot undertake to acknowledge the receipt of all jokes sent in.

acknowledge the receipt of all jokes sent in, other than that the publication will of course be an acknowledgment. Great care, however, will be taken to preserve all jokes received, and to see that judgment is passed upon them by Mr. Nee.

and to see that judgment is passed upon them by Mr. Nye.

It has not yet been determined when the contest will close. That will depend upon the degree of interest aroused by the con-test. But it will be well for competitors to send in their jokes at once, as in the case of two jokes of equal merit, priority of receipt would determine the prize winner.

When Mr. Blaine is finally landed at the Imman pier he will be greeted by the waving of emblematic handkerchiefs, red bordered and bearing his portrait. Those handkerchiefs will have one adhesive side, so that they can be stuck upon a stick or cane. They are to be of Chinese silk paper, and 200,000 of them are being made especially for this occasion. They will bear the inscription:

"Welcome home, August, 1888."

AMONG THE SICK BABIES.

Visiting a Beneficiary of the "Tribune? Fresh-Air Fund-A Young Hero Who Endured a Painful Operation Without Plinching - Other Little Patients Soon Yesterday-Gratitude of Poor Mothers.

THE EVENING WORLD physician went yesterday in response to the request of Dr. Wilbur, of Hightstown, N. J., to see Master Joseph Stephanek, 331 East Thirty-eighth street. The little fellow, who is eleven years old, and very manly for his age, was found in the house with two or three smaller brothers and sisters. His father and mother were both away at work in a cigar factory in the neighborhood.

The object of the visit was explained to Joseph, and he received his caller with wonderful grace and dignity. He said he had been sent to get the country air at Hightstown, N. J., by the Tribune Fresh Air Fund. He had a splendid time under the auspices of that most admirable charity, but before leaving his pleasure was marred by having a pitch-fork accidentally run into his cheek, just under his eye. The doctor there was was very kind to him and everything possi-

was very kind to him and everything possible was done for his comfort.

THE EVENING WORLD physician found his eye still considerably swollen and bloodshot, but the wound, which had been somewhat lacerated, was nearly healed. The stitches which had been put in were taken out. The little fellow sat as still and stolid as an old soldier while this painful operation was being performed. Bravo, young Joe! You are a boy who has not been pampered, but taught to act bravely in adversity and pain. You have in your make-up the elements of a brave man. brave man.

And this is not the only young hero The Evenino World physician has seen in his visits. He meets them daily. One cannot fail to be impressed with the really noble traits of many of the children and adults in the abodes of poverty.

In a rear tenement at 32 Jackson street were found yes erday several mothers, who, having read of the work of The Evenino World, were awaiting the physician with their sick babies. Their hearts were made glad by the promot alleviation of the suffering of their little ones.

While revisiting Mrs. Geist's baby at 325 Rivington street, two more children in another family were found in urgent need of medical help. A poor little girl of five years, named Rosie Lauth, living at 70 Georck street, was suffering intensely from inflammation of the middle ear, following measles. The little one was cryjing pittfully with cruel pain. The poor mother was trying hard to The little one was crying pittinily with cruel pain. The poor mother was trying hard to soothe her little darling with tender caresses. When the suffering had been relieved the little brain-racked mortal fell asleep in her arms. The mother's gratitude was unspeakable.

Col. E. A. Dickinson, the Secretary of the Campaign Committee, said to-day: "The committee is very busy, and we are receiving encouraging news, especially from the Northwest States. The various State committees appear to be better organized than they were four years ago at this time of the campaign. We are in direct communication with the Chairman of each committee."

The New York State Committee will be equipped for service in a few days. The fixing up of headquarters at the Hoffman House has delayed the work of the State Committee.

Assembly man John Martin, of the Ninth Assembly District, has been elected Sergeantat. Arms of the Democratic Nat onal Committee. His selection for this position was quite a surprise, especially to Mr. James Oliver, of Paradise Park, who had prominent Democrats from every State behind him. Assemblyman Martin is a County Democracy man.

The Advisory Committee of the State League of Democratic clubs held a meeting last evening at the Hoffman House. Among those present were Roswell P. Flower, James E. Graybill, of the city; William H. Vermilye, of Richmond County, and Horace Cramer, of Saratoga. The League will hold a State Convention after the regular party convention is held. It is thought that over five hundred clubs will be represented at the League Convention.
